Feinstein School of Education  
and Human Development  
Teacher Education

It is my pleasure to inform you that the Department of Educational Studies and the Dean's office have approved your application for admission into the Second Degree Teacher Education Program in Secondary Education/Biology within the Feinstein School of Education and Human Development. Based on your skills, past performance, and personal qualities, you are entitled to enter the Department's professional education sequence.

You must take and pass the Principles of Learning and Teaching test (grades 7-12) and the content knowledge test related to your academic major before student teaching. Because the content of CEP 315 and the content of the Principles of Learning and Teaching test (PLT) are similar, you are encouraged to take the PLT immediately after completing CEP 315. The passing score on the PLT is 167. The passing score on the content knowledge test varies by academic major. Only paper based test administrations are available. Please consult the Educational Testing Service website ([www.ets.org](http://www.ets.org)) for specific test administration information.

This is the first step on your journey to becoming a special influence on the personal growth and educational success of your future students. Please remember that your continued strong performance at the College and in your major courses is important. In order to maintain your program status, the Feinstein School of Education and Human Development requires a cumulative grade point average (GPA) of 2.50 as well as successful performance in your teacher preparation program. In Biology and Mathematics courses a 2.50 GPA is required. Please consult with your advisor, Dr. Suzanne Conklin, at your earliest convenience to plan the balance of your course of study.

Welcome to the process of becoming a teacher.

Sincerely,

  
Karen S. Castagno, Ph.D.  
Associate Dean for Teacher Education

**Second Bachelor's Degree Program**  
*Plan of Study*

Social Security Number: \_\_\_\_\_ Date: December 9, 2002

Name: \_\_\_\_\_ Program: Sec Ed - Biology & General Sci

Address: \_\_\_\_\_

Previous College(s): Eastern Washington University BS-Nursing

The above named student must complete the specific courses outlined in this Plan of Study to be eligible for the award of the baccalaureate degree at Rhode Island College under the provisions of the second degree policy. **This plan of study must be completed, signed and returned to the Office of Undergraduate Admissions no later than December 1 for spring admission and July 1 for fall admission.**

Candidates must complete successfully a minimum of 30 semester hours at Rhode Island College. At least 15 of the 30 hours must be taken in the department of the major. Course/credit proficiency, cooperative education, field experience or prior learning may not be counted toward this 30 hour requirement. A double major is not permitted under the Second Degree program, nor is concurrent enrollment in a graduate program. A change of major requires a new application for admission.

**Major Requirements:**

- BIOL 111 Introductory Biology I (4)
- BIOL 112 Introductory Biology II (4)
- BIOL 221 Genetics (4)
- BIOL 318 Ecology (4)
- BIOL 320 Cell & Molecular Biology (4)
- BIOL 491 Problems in Biology (1)

**Professional Requirements:**

- CEP 215 Educational Psychology (4)
- FNED 340 Foundations of Education (3)
- FNED 345 Diversity in the Public School (3)
- SED 405 Dimensions of Secondary Education (4)
- SED 410 Practicum in Secondary Science (5)
- SPED 433 Adaptive Instruction for Students in the General Education Setting (3)
- SED 421 Student Teaching in Sec. Schools (9)
- SED 422 Student Teaching Seminar (2)

**Cognate Requirements:**

- CHEM 103 General Chemistry I (4)
- CHEM 104 General Chemistry II (4)
- CHEM 205 Organic Chemistry I (4)
- CHEM 206 Organic Chemistry II (4)

- PHYS 101 General Physics I (4)
- PHYS 102 General Physics II (4)
- PSCI 217 Introduction to Oceanography (4)
- MATH 209 Precalculus (4)
- MATH 212 Calculus I (4)

**Total number of credits: 90**

To Whom It May Concern:

\_\_\_\_\_ is a student in my INST 251 class this semester. Her current grade is an A and she has never missed a class. On the basis of her performance in my class and her very positive attitude toward learning, I would certainly recommend her for admission to the Feinstein School of Education.

**Career Commitment Essay**  
Feinstein School of Education and Human Development

---  
10/5/2007 , - Secondary Education

Having been a burn and trauma nurse for nearly thirteen years, I began to re-evaluate why I had gone into the profession of nursing and what had made me stay in nursing all these years. Reflecting back on my career and highlighting the themes that I found to be most rewarding, I consistently found I received the greatest satisfaction from educating my patients. With the idea of becoming a teacher firmly crystallized in my mind, I began to take the steps necessary to make it possible.

I received a Teacher's Assistant Certificate through East Bay Collaborative in 2001, wishing to work with children and to see firsthand how teachers are managing their classrooms. I realized that being a substitute teacher I would not be able to experience that. I immediately began working in the Barrington, Rhode Island school district at the elementary, middle and high school levels. I often had the opportunity to assist a high school student, who had Cerebral Palsy, while attending biology and science classes. I was enthralled as I watched one particular biology teacher at the high school have her students produce a play depicting Mitosis and Meiosis. This teacher had no difficulty holding the students' attention and was able to foster a curiosity related to biology in her students in ways I had never imagined. Her students would come early to class to ask questions. Some brought news articles they wanted to expand on, others stayed after class to further discuss the topic that was presented that day. I found myself wishing to do the same thing, to spark a life-long interest and inquisitiveness in my future students, not only in biology and the sciences but also learning in general.

During this time I was offered a teaching position at a private high school in Rhode Island, having a Bachelor of Science degree already. I did not take that job because I felt that I would be doing an injustice to my future students if I took that position without first expanding on my current knowledge in biology and the sciences. I also felt it was extremely important to ascertain the theories related to education and teaching so I may learn how to become an effective teacher. I believe it is imperative that an individual should continue to pursue opportunities to learn throughout their lifetime to better

themselves and I hope to instill that same belief in my future students. These beliefs reinforced my decision to pursue a degree in teaching.

I chose to attend Rhode Island College because of its reputation of having a strong education program and I was impressed with the many options of classes and research opportunities available in Biology and the Sciences. I also felt that Rhode Island College's Beginning Teachers Standards coincided with my own beliefs related to teaching. The concept of "fostering collaborative relationships with families and colleagues", really struck a chord with me because I believe that the classroom should not be an area of isolation. I feel for a student to be able to fully appreciate and understand a subject, the teacher should not be their only source of information. You can broaden a students' exposure by inviting experts in their field to come into the classroom, have community members discuss their experiences with the students, and collaborate with colleagues to augment the curriculum.

As a nurse I had to adapt and expand my teaching techniques to meet a wide audience. I had to recognize that some of my patients come from different socio-economic groups, may be ethnically and culturally diverse, and have different learning styles and varying degrees of resources available to them. For example, I worked with an elderly woman living with her daughter who had Down's syndrome. I was treating her for 3<sup>rd</sup> degree burns on her arms and hands that she had sustained from her wood stove. She lived in a very rural area in Vermont, had no have running water in her house, not to mention that her house had only dirt floors. I had to adapt the way I taught wound care to her, taking into consideration her environment, support systems and resources available to her so that she could effectively perform her dressing changes once she was discharged. I felt that Rhode Island College could broaden my understanding of diversity and could also help me further expand my personal strengths; being an active listener, a nurturer and someone that occasionally challenges conventional thinking. Rhode Island College would be the spring board I needed to help me achieve the goals that I have set for myself, and to become the finest teacher I possibly could be.

In January of 2003, I enrolled at RIC and since then I have immersed myself not only in my classes but have also become involved in the RIC community. I helped create a RIC chapter of the National Science Teachers Association (NSTA) in 2004 and have since been elected Vice President and this year the Treasurer. For three consecutive years NSTA has presented the Howard Hugh Medical Institute's Winter Lecture Series via live web cast to RIC's student body. Topics of these series have ranged from Evolution to HIV and AIDS, which will be presented this year. Spring Semester of 2005 I also became a lab assistant for one of my professors in her AP Biology class, where I was able to interact with the students and assist in designing upcoming labs. In addition, I helped create and implement the biology section of the Science Olympiad that local high school and middle school students participate in at RIC. I feel that it is important to take advantage of these opportunities, to meet a wide range of people, and learn as much as possible in order to bring this collective experience into the classroom.

In May of 2006, my husband and I decided to embark on an epic adventure and took a year sabbatical to circumnavigate the North Atlantic Ocean in our 42 foot sailboat. We visited the Azores, Europe, including Spain and Portugal, the Canary Islands, Cape Verde and the Caribbean. In each country we visited we immersed ourselves in their culture, and tried to learn as much as possible during our time in that particular country. It was an amazing experience for me to be able to see firsthand what it is like to live in these ethnically and culturally diverse countries, since so many of our children in Rhode Island have come from these countries. I feel that this experience will greatly benefit my students; I will be able to relate to their cultural diversity in a way many others may not be able to. I also plan on incorporating as much of this adventure as possible into my curriculum to show students that by just expanding on some basic foundations in biology and the sciences the world can open up to them in ways they never imagined.

Department of Biology

Program Admission Committee  
Feinstein School of Education and Human Development  
Rhode Island College  
Providence, Rhode Island 02908

Dear Committee Member,

This letter is written in support of \_\_\_\_\_'s application to the teacher education program in the Feinstein School of Education and Human Development. I have known \_\_\_\_\_, for about three years and have had the pleasure of having her in two classes, Introductory Biology I and Cellular and Molecular Biology. For both of these courses she received an "A."

\_\_\_\_\_ is an unusual student. She is a biology major (chemistry minor) who already has a bachelor's degree in nursing and years of nursing experience. She is also an older student who felt a calling to enter the teaching profession. At my encouragement she entertained the idea of pursuing a Ph.D. in biology, beginning with a Master of Arts degree in biology from RI College. But after serious consideration, she returned to her original goal of teaching in a secondary school setting because of her love of the subject biology and of young people. I respect her decision and feel that she would make an outstanding and exceptional teacher.

She has an exceptional command of the subject of biology as her grades demonstrate but she also is an effective communicator both orally and in writing. She has the wonderful ability to bring student together to focus on a common task. This I saw in the laboratory sections of both courses that she took with me. Moreover, she organized study groups to help other students learn the material. Her maturity and unflappable poise will make her a "gifted" teacher who will probably reach the broadest spectrum of students in a high school classroom.

Providence, RI 02908-1991

and Human Development

page two of two pages

My confidence in \_\_\_\_\_ is based on what I have observed in courses and the interactions that she has had with other students. In the spring semester of 2004 I organized a group of students to evaluate a new Introductory Biology text and to compare that text to another standard text. \_\_\_\_\_ was part of this group. The publisher of the new text sent a representative to organize and run the evaluation. For obvious reasons I did not participate in the evaluation. But I did receive a report that documented that evaluation. \_\_\_\_\_ played a significant role in the meeting and provided a great deal of insight into her experiences in the process of teaching and learning from different texts. It is clear to me that what will make \_\_\_\_\_ an exceptional teacher is her ability to see things from both the student and the teacher's perspective. \_\_\_\_\_'s interest in educating students about biology and her ability to interact positively with younger students are the basis for my conclusion that \_\_\_\_\_ will be an outstanding teacher. I therefore recommend \_\_\_\_\_ as an exceptional and outstanding candidate for the teacher-training program at RI College.

Sincerely yours,

Lloyd Matsumoto, Ph.D.  
Professor of Biology

## DISPOSITION REFERENCE FORM

### FNED 346 Faculty (Confidential)

This section is to be filled out by the applicant.

Name: \_\_\_\_\_ ID #: 0733803 Telephone #: \_\_\_\_\_  
 Teacher Preparation Program: Secondary Ed Major/Concentration: Biology/Science  
 Name of Evaluator: Mark Demoranville Position of Evaluator: \_\_\_\_\_  
 Professional Address of Evaluator: 16 Dept. of Educational Studies, Henry Barnard

This section is to be filled out by the evaluator.

For each item circle the numbers, 1 (for low) to 4 (for high) to indicate your judgment of the degree to which the applicant possesses or has demonstrated the attribute/behavior identified on each item. Circle N/A if you have insufficient knowledge to make a judgment.

		Low			High	
1.	Exhibits self-awareness and self-confidence (Self-Reflection)	N/A	1	2	3	4
2.	Has goal clarity (Self-Reflection)	N/A	1	2	3	4
3.	Is intellectually curious and/or creative (Lifelong Learning)	N/A	1	2	3	4
4.	Is enthusiastic about learning (Lifelong Learning)	N/A	1	2	3	4
5.	Demonstrates ability to communicate effectively with children and youth (Advocacy for Children and Youth)	N/A	1	2	3	4
6.	Listens and is responsive to children and youth (Advocacy for Children and Youth)	N/A	1	2	3	4
7.	Welcomes diverse viewpoints and is open-minded (Respect for Diversity)	N/A	1	2	3	4
8.	Is adaptable to change (Respect for Diversity)	N/A	1	2	3	4
9.	Works well with others (Collaboration)	N/A	1	2	3	4
10.	Is socially tactful (Collaboration)	N/A	1	2	3	4
11.	Works hard and is thorough (Professional Work Characteristics)	N/A	1	2	3	4
12.	Is reliable and dependable (Professional Work Characteristics)	N/A	1	2	3	4

Signature of Evaluator: Mark Demoranville Date: 4/10/06

Please use the reverse side for any comments.

is a very mature, enthusiastic person with a highly professional demeanor.

Her work was excellent, and I have every confidence that she will be an excellent teacher.

Signature of Evaluator: Sheila M. Quigley Date: 7.16.07

Please use the reverse side to describe the nature and duration of the supervised pre-professional experience with children or youth undertaken by the applicant.

I have had the distinct pleasure of  
knowing \_\_\_\_\_ for over 10 years.

She exhibits all the characteristics that  
are desirable in an educator. She  
is intellectually curious, articulate and  
self-aware.

On several occasions, I have observed  
her interacting with children. She is  
an especially good listener and her advice  
and comfort are sought out by many young  
teens.

Further, \_\_\_\_\_'s zest for life and  
enthusiasm is contagious. She shares  
a love of life with all who come in  
contact with her.

\_\_\_\_\_ will make an excellent teacher  
and will be an asset to the  
Rhode Island College community.

Sincerely,

Shirley Dugby

## EXAMINEE SCORE REPORT

### BACKGROUND INFORMATION

Examinee's Name: \_\_\_\_\_  
 Candidate ID Number: 03758860      Social Security Number: \_\_\_\_\_      Sex: F      Date of Birth: \_\_\_\_\_

### EDUCATIONAL INFORMATION

College Where Relevant Training Was Received: RHODE ISLAND COLLEGE  
 Undergraduate Major: BIOLOGY  
 Graduate Major: OTHER MATH/NATURAL SCIENCES  
 Educational Level: EARNED BACHELOR'S DEGREE PLUS ADDITIONAL CREDITS  
 GPA: 3.5 - 4.0

### SCORE RECIPIENT(S) REQUESTED

Code #	Recipient Name
R3724	RHODE ISLAND COLLEGE
R8077 (A)	RHODE ISLAND STATE DEPT EDUC

HOLLY E DIRKS  
 55 LINDEN ROAD  
 BARRINGTON RI 02806

### CURRENT TEST DATE: 12/07/2005

Test Code	Test Name	Your Score	Possible Score Range	Average Performance Range**	Score Recipient Code(s) from Current Administration					
					R3724	R8077				
5710	C-PPST: READING	184	150 - 190	175 - 182	Y	N				
5720	C-PPST: WRITING	175	150 - 190	173 - 177	Y	N				
5730	C-PPST: MATHEMATICS	179	150 - 190	175 - 183	Y	N				

Refer to enclosed interpretive leaflet for additional information.

### HIGHEST SCORE AS OF: 12/16/2005

Test Date	Test Code	Test Name	Your Highest Score	Possible Score Range	Score Recipient Code(s)					
					R3724	R8077				
12/07/2005	5710	C-PPST: READING	184	150 - 190	Y	N				
12/07/2005	5720	C-PPST: WRITING	175	150 - 190	Y	N				
12/07/2005	5730	C-PPST: MATHEMATICS	179	150 - 190	Y	N				

Scores will be available for reporting for ten years.

### MESSAGE CODES

- A SCORE AUTOMATICALLY REPORTED TO STATE LICENSING AGENCY.
- Y SCORE REPORTED TO RECIPIENT LISTED.
- N TEST NOT REQUIRED BY DI. SCORE NOT REPORTED.

\*\* The range of scores earned by the middle 50% of a group of examinees of appropriate educational level (see interpretive leaflet for details) taking this test during the most recent three academic years. N/C means that this range was not computed because the test was taken by fewer than 30 examinees within the most recent three academic years.

DETAILED INFORMATION FOR 12/07/2005 TEST DATE			
Test Category	Raw Points Earned†	Raw Points Available	Average Performance Range‡
COMPUTERIZED PRE-PROFESSIONAL SKILLS TEST: READING			
I. CRITICAL AND INFERENTIAL COMPREHENSION	16	17	10 - 14
II. LITERAL COMPREHENSION	21	23	15 - 21
COMPUTERIZED PRE-PROFESSIONAL SKILLS TEST: WRITING			
I. GRAMMATICAL RELATIONSHIPS	5	9	4 - 6
II. STRUCTURAL RELATIONSHIPS	13	14	7 - 10
III. IDIOM AND WORD CHOICE; MECHANICS; NO ERROR	9	15	5 - 8
IV. ESSAY	6	12	6 - 9
COMPUTERIZED PRE-PROFESSIONAL SKILLS TEST: MATHEMATICS			
I. CONCEPTUAL KNOWLEDGE AND PROCEDURAL KNOWLEDGE	15	18	10 - 15
II. REPRESENTATIONS OF QUANTITATIVE INFORMATION	6	12	6 - 10
III. MEASUREMENT AND INFORMAL GEOMETRY, FORMAL MATHEMATICAL REASONING	8	10	6 - 9

† For categories containing multiple-choice items, Raw Points Earned are the number of questions answered correctly. For categories containing constructed response items or essays, the Raw Points Earned are the sum of the weighted ratings awarded.

‡ The range of scores earned by the middle 50% of a group of examinees who took this form of the test at the most recent national administration or other comparable time period. N/C means that this range was not computed because fewer than 30 examinees took this form of the test or because there were fewer than 8 questions in the category or for a constructed-response module, fewer than 8 points to be awarded by the raters. N/A indicates that this test section was not taken and, therefore, the information is not applicable.
